

The Magical Beeley Bug's Game

Please ask an adult to help you before you start.

You will need:

- Paper
- Scissors
- Printer
- Glue

Download and print 3 of each coloured flowers, 12 white flowers and one of each of the heart shaped Beeley bugs' noses. Cut them out (with help from an adult) and stick the white flowers to the back of the coloured flowers and let them dry.

How to play the game (4 players)

Place all of the flowers white side up onto the floor. Each player has a different coloured beeley bug nose. Take turns touching a flower with your paper nose and then turn over the flower to see if the colour is the same. If they match, then leave the flower face up. If they don't match, then they turn the flower back over.

The next player then has their turn.

The winner is the person who finds all 3 of their coloured flowers first.
